- Professional.** There are many tool sets on the market – but only very few at this professional premium quality level and made in Germany. The features you expect of STAHLWILLE and the hand-picked materials not only guarantee long tool lifetimes but also enable much more efficient, safer working.

- Individual.** In contrast to many other sets of tools, this STAHLWILLE bag offers ample storage space and can be supplemented with existing tools. Ensuring you have everything you need within reach.

The **professional tool bag** can be closed quickly and easily using the press studs and Velcro fasteners. So the tools are easily and quickly accessible but still well protected.

STAHlwille ratcheting bit-holder with easy direction changes (anticlockwise, clockwise and locked) by a quick twist of the switch ring and with an integrated storage space in the end of the handle.

STAHlwille bits guarantee optimum torque transmission and service life thanks to high-alloy special steels and special hardening processes.

The **STAHlwille slip-joint pliers** feature an ergonomically designed handle and a box joint for the highest demands.

Robust. The special fabric and other high-quality materials such as the chrome-plated metal handle make the tool bag a robust, reliable companion.
